

Testimonial - Mark

Thank you for your amazing work on our property.

You responded to our call quickly with a site visit and quotation, allowing up by attending to the project inside two days.

We were impressed by your manner and professionalism and the clean state the premises were left in after the project.

As you know, repair of the chimney's was urgent as they were just about to fall through the roof. We had contacted other bricklayers prior to ringing you and they simply went into a blind panic when confronted with the state of the chimneys.

It was great to talk to a cool professional who knew his business and who could attend to the problem almost immediately.

We also found your price to be very reasonable as well.

A very big THANKYOU for your efforts and please pass on our remarks to your other personnel who were in attendance.
